

Did You

Words & Music by Robert L. Force
© Wellyn International 2013

(Starts with the chorus; first two words are a cappella.
Both the verses and chorus use same chord progression)

432 D

Did you go where you wanted to go?

421 A

And did you do what you wanted to do?

432 D

Did you find somebody to love, did that someone love you?

Could you be who you wanted to be?

533 G

421 A

432 D

And did you reach for the farthest star? Did you find out who you are?

And did you watch a tropical sunrise on a southern California sea?

Did you watch those pelicans skimming over the wave tops on the breeze?

And did you see your footsteps disappear on the sands of a changing tide?

Did you stop and kiss your young bride?

And did you read to your children late into the night?

Kiss them on the foreheads, turn off the light?

And did you open the door just one more time to watch them in their sleep?

Did you discover, that love is for keeps?

– Repeat Chorus (And did you go...)

And did you hold the hand of your best friend as he slipped from this life?

Did you look into his eyes, know it would be alright?

And did you draw, or paint, or pray, or write a song?

Did you pick your life back up and move on?

– Repeat Chorus (Did you go...)

And did you find yourself humbled 'neath a great and starry sky?

Did you hold that wonder within you as time passed you by?

Did you give praise for all the ways you were fearfully and wonderfully made?

Is this something you could trade?

– Repeat Chorus (And did you go...)

– (the last verse below using partial words of the chorus is done slowly)

Did you go? And did you do?..... And did you love?.....

Did you make peace with heaven above?
