Chorus:

G D G
Love is a disease and you'll catch it in the end

G C G (HIGH) G (LOW)
Just when you think it's over, it starts back up again

G C
You may be crying, hurt and lonely
D D
abandoned in a foreign town
D C
And just when you're sure there is no cure
G (HIGH) G (LOW)
Love spins your heart all around

Repeat Chorus

You may be hiding yourself in sorrow
And afraid to face the day
The face in the mirror won't call you dear
And your life is leaking away

G D (LOW)
And when drowning in some kind of booze
G
Is all there is left to choose
C
Love starts to tap in your shoes
G (HIGH) G (LOW)
And your worries go winging away

It's an ace-high king to a jack ten
As you reach for your final card
It's love's sweet dream when you turn the queen
And all of them come up hearts

Repeat Chorus
