C **G** (013)
I found one thing in my life

C **A5/E**
That I could say was true

C **G** (533) slide to hi-**G** (765)
Learning to follow my heart

C/D (644) **D** **G** (533)
Let me fall in love with you (Chords are walked down... singing is all on the G.)

And it didn't make a difference
All those other things
'Cause falling in love with you
That's what really taught me how to sing

Gone now are the melodies
I used to sing to save the world
Now there is a symphony
To just one girl

And I can't say for certain
What else might be true
But I know my love's been given
Been given to you

And in the living of our lives
As love dances us along
I'll be grateful in my heart
Singing this song

You are the sunshine in my life
The one whose light always shines
All your laughter and your tears
Forever mine

Steve Eulburg, Butch Ross, Stephen Seifert and Quintin Stephens agree with the A5/E. The voicings of these chords are very important for the flow of the song, hence writing the dulcimer positions. Not any G works either. Guitar players might be challenged. Note the C/D chord. Sliding between chords gives the words foundation, timing and lilt.
